

Still 40 slots for proctors this Wednesday and Thursday

Our Broncos need YOU for successful testing

Huge thanks go out to so many of you who have already given your time and efforts to BMS. With testing season upon us, we need to reach out to you once again!

We are still in need of proctors to cover this week's testing. No previous experience required, and a brief training will be provided prior to your slot.

Simply [click on the link](#) to find a list of dates and number of proctors needed. When signing up, please include your child's name and homeroom/grade because we must ensure you do not proctor your child's test.

Please help us spread the news around to community groups, churches, senior groups, etc... A few hours of your time will make a huge difference in the testing success of our Broncos!

Door prizes, coupons, and even student-driven incentives will be given out every day.
If you've been waiting for an opportunity to make an impact, this is it!

All volunteers must be registered through the CMS system. [Click HERE](#) to register as a CMS volunteer. Questions regarding proctoring, please email [Amy Gais](#).
