

### What is PowerSchool Parent Portal

PowerSchool Parent Portal gives parents and students access to real-time information including attendance, grades and detailed assignment descriptions, school bulletins and even personal messages from the teacher. PowerSchool's Parent Portal provides single sign-on access. With single sign-on access parents create and maintain their account using the appropriate access credentials. Once parents have created their account, they will be able to manage their account information, link any and all students to your account (for whom you have parental or legal rights), and set email and notifications preferences for each student linked to your account. If account sign-in information has been forgotten, it can be retrieved by using the auto-recovery feature on the sign-in page.
