

Dear PSE Parents/Guardians,

Once again, Charlotte-Mecklenburg Schools is asking for your feedback on how well Providence Spring is creating a school environment that supports your child in his/her quest to achieve academic excellence. Our faculty and staff members are certainly passionate about designing challenging and engaging instruction to promote life- long learning habits among our boys and girls. Our PTA also “steps up to the plate”, to provide the generous financial support to provide for classrooms rich with resources to feed the curiosities and the hunger for learning in all our scholars, K-5. But, at the end of the day, we need to hear from you, our parents, to see if we’re on the “right track.”

These are the reasons that CMS has launched this year’s parent survey which asks questions about:

- Academic preparation
- Parent/guardian engagement
- Safety and behavior
- School operations and
- School leadership.

If you have a current email address on file, you have probably already received a personal survey invitation and you may have already completed it. If so, we thank you. If you have not received an invitation, please let your voice be heard by going to [www.k12insight.com/CMS/Parent2015.html](http://www.k12insight.com/CMS/Parent2015.html) or by clicking the link on our district website.

Thank you for your continued support for quality programming here at Providence Spring. We value your experiences and opinions and want you to be our partners in our continued efforts to provide a first rate elementary education for each child in our school family.

Thank you,

Diane Adams, Principal
